QUESTION

So, you prefer a verbatim representation when you edit ...uh ... edit transcripts and you use TruTranscripts for as your service, tell us about the ... how script format you work with.

HAPPY CUSTOMER

Well, I ... I (Clears Throat) really like the way they captured the speaker verbatim and that's how I need to see the dialogue. They provide a script style layout with a wide left margin allowing for post-production and editorial notes.

QUESTION

Really? You ... uh... you ... how does that work for you?

HAPPY CUSTOMER

It makes my work editing transcripts a lot easier.
