**YOUR COMPANY HERE**

## QUESTION

01:00:16 So, what can you tell us about the last time coded transcription job that TruTranscripts did for you?

## HAPPY CUSTOMER

01:00:30 They took my audio files and created time coded transcripts with the time frames I requested. The transcripts were time coded to my specifications.

## QUESTION

01:01:07 You say you also had video files with a window burn ... and ... and time coded audio files. Tell us about that.

## HAPPY CUSTOMER

01:01:24 TruTranscripts was able to produce time coded transcripts matching the running time code on the video window burn and from our audio files with embedded code. This made post-production editing a lot easier.
